

I listen to K-LOVE on 88.7 locally. I truly enjoy the fact that it is a national radio station that I can listen to anytime. As there is only one other Christian radio station on FM, K-LOVE has had a big impact to our community. Everywhere I go, I see the K-LOVE bumper stickers, so I know many people listen to their station

That being said, you can imagine the effect on our community if K-LOVE were to be displaced by an LPFM broadcaster providing other information. Even though K-LOVE is a national radio station, they provide a special service to the local Christian community by promoting family values, providing positive and encouraging music, and gives this little South Texas community a "connection" to the bigger world. Our other Christian radio station on FM has music, but also various talk shows. K-LOVE provides full-time music so that I now have a choice between the two.

I respectfully ask that you consider these comments when making a decision to a service I value greatly.
